"COME TO STAY"

Has the System of Electrical Execution--Governor Hill's Opinion--Warden Brown Censured.

NEW YORK, July 8.—The morning papers of this city, in commenting today upon the electrical executions at Sing Sing yesterday, which they generally regard as successful, take occasion to vigorously attack Warden Brown for his extraordinary and wholly unnecessary, as well as futile pains, to prevent the newspapers from getting news of the executions. The placing of armed guards outside the prison walls, referred to as a "dead line," is condemned as authority arbitrarily assumed.

Governor Hill arrived in town last night. In reply to a representative of the United Press regarding the executions at Sing Sing, the governor said: "This system of electrical execution has come to stay. I received an official notice from Warden Brown merely saying that the executions had taken place successfully, and I know nothing more about them than what I have learned from the newspapers." Many of the witnesses who witnessed the executions were in this city last night. The United Press representative called on them for information regarding the executions, but they are bound to secrecy they are very reticent. Some interesting facts and opinions were elicited, however. Dr. A. D. Rockwell characterized electric death as being far more humane than hanging and said that in none of the hangings he witnessed did the men suffer as little as the murderers who sat in the death chair yesterday. All four died instantly and painlessly, only exhibiting the gathering rigidity which marked the work of the current. Dr. Rockwell denies that any burning was apparent. He said all of the condemned men were docile, submitting without demonstration to their death. Dr. Daniels said that but for his promise not to talk he could tell a startling tale. He admitted that as in Kemmler's case it was necessary to shock the victims twice. He said the doctors carried away portions of the victims' bodies for examination. One physician, whose name may not be mentioned, said he never saw anything so neatly done. It reminded him of a little family party as they sat in the room there. Dr. L. Corlielly said he attended the test in the interest of science and his mind was made up if he found any cruelty in the infliction of the death penalty by electricity to lay a complaint before the proper authorities and have them abolish it. Death in every instance was absolutely painless and instantaneous, he believed. Two shocks were administered simply as a matter of precaution. Dr. R. H. Southwick said that the experiments were highly successful, and he feels satisfied now that electrical executions have come to stay. Dr. Franklin Townsend said the executions were perfectly successful.

The Sun says: This morning the Sun and every other real newspaper in the state openly and deliberately violated that section of the electrical execution law which forbids the publication of the details of an execution; this provision is a disgrace to the civilization of which we are proud. It is against public policy, it is impossible to enforce it, and it is defied and will continue to be defied by every self respecting newspaper in New York on every such occasion. The law defies a higher law, namely the constitution which decrees that "no law shall be passed to restrain or abridge the liberty of speech or the press." But the press has another duty to perform. It must bring about the repeal of this unconstitutional provision. To that end it should devote its utmost energies at the next election. Without regard to personal or partisan considerations it should support for the legislature and for responsible executive posts only such candidates as are distinctly committed against this preposterous law. The Sun is ready for one, to engage itself to support any republican candidate who shall promise to vote or work next winter for the repeal of the law.

MINISTER KILLED.

Strange Accident Which Happened an Aged Preacher.

WASHINGTON, July 8.—Rev. Dr. Wm. A. Schubert, a retired Episcopalian minister, sixty years of age, was accidentally killed last night by a little boy named James Gant. The old gentleman, who was quite feeble, was crossing the street near his home and the boy was riding on a bicycle. Just as he neared Dr. Schubert the bicycle struck a stone and the boy was thrown with great force against Dr. Schubert, who fell heavily to the asphalt pavement. He was carried to his home and died shortly afterward.

IT WAS DEFECTIVE.

The Fatality on the British Gun Boat Due to Carelessness.

LONDON, July 8.—It is stated at Portsmouth that the gun which recently exploded with such fatal effect on board the British war vessel Cordellia, in Australian waters, had previously been found defective and had been strengthened; but the fact that six charges had been exploded leads to show that the gun was in a safe condition. The fact that repeated cases are known of guns bursting at the chase under the prolonged pressure of slow powder removes all ground for assuming the existence of a weakness or flaw. None of the causes assigned explain the bursting of the gun.

A DESPERADO KILLED.

Manuel Soto, After a Bloody Fight, Surrenders to Death.

SAN JOSE, Cal., July 8.—Yesterday morning a desperate encounter occurred between a posse of officers and a noted criminal named Manuel Soto, which was preceded by Soto's killing Nicolas Smith, a half breed Mexican, the frightful slashing of his (Soto's) wife, with a stiletto, the wounding of a man named Lapierre and an attempt upon the life of Soto's nineteen-year-old daughter. Soto has been the object of search of the officers for years. He was accused of various crimes and a reward of $3,000 was offered for his capture. Soto and his wife have lived apart for the past ten years, and yesterday morning he visited her residence. Mrs. Soto, becoming alarmed, screamed for assistance. Two boarders named Smith and Lapierre responded. Soto shot Smith through the heart. Lapierre fled to notify the police and Soto attacked his wife, cutting her badly. His young daughter attempted to escape and Soto fired three bullets at her, none of which took effect. The police finally reached the house and Soto opened fire on them. The officers returned the fire, and the exchange of shots was kept up for fifteen minutes. When the body of Soto was dragged out his form was found to be perforated like a sieve. During the affray Officer Edwards was shot in the hand and arm, and Monahan in the head. The latter's condition is very critical.

AN UNHAPPY WIFE

Ends Her Miserable Life by Sending a Bullet Through Her Heart.

LOUISVILLE, Ky., July 8.—Mrs. Priscilla Cook, is a handsome woman forty-five years of age. She was married to James W. Cook, at Marysville, Clark county, Indiana, twenty-eight years ago. The couple have no children and have not led a happy life. Several weeks ago they came to Louisville.

Last Thursday they had a violent quarrel and she had him arrested. He then abandoned her and refused to give her money to go to her relatives in Missouri.

When the chambermaid went into her room this morning the woman lay dead upon her bed, a 32-calibre revolver lying by her side and a stream of blood still rushing from a wound directly over her heart.

SHOT HIS SON.

Followed Him Into the Yard and Mortally Wounded Him as He Ran.

SOUTH PITTSBURG, Tenn., July 8.—George W. Tanner, residing some four miles north of this place, became enraged at his twenty-year old son, George Tanner, jr., at the breakfast table yesterday morning. Some words passed between the two, and the young man arose from the table and left the house.

The father followed him into the yard, picking up his shotgun as he went out. When within a few feet of the boy he raised the gun and fired. The boy knocked up the gun and the contents went harmlessly into the air. He then broke and ran, but had not gone but a few feet when the father fired again. The boy fell, probably mortally wounded. The father was arrested.

TWO BIG FIRES.

A Convent in Quebec and a Depot in New York Doomed.

ST. HILIARE, Que., July 8.—The convent of La Providence, commonly known as that of Sisters Gadbois, situated on the Richelieu river below Belœil, is on fire and will probably be a total loss.

LATER.

The whole convent is now entirely wrapped in flames. There is now no hope of saving any part of it.

NEW YORK, July 8.—The main depot of the Sixth Avenue Railroad company is burning. It occupies an entire block between Forty-third and Forty-fourth streets and 200 feet back from Sixth avenue. The loss from the present indications will be heavy.

TO AID ITALY.

German Bankers Look With Favor on Applications for Loans.

LONDON, July 8.—The Italian government has already sounded the principal bankers of Berlin on the subject of a loan. The response of the bankers appears to have been of an encouraging character, and there is a prospect that Italy may be relieved from a critically serious financial situation. The good offices of the German government have been freely extended to Italy in the premises, Germany being anxiously desirous of seeing Italy so solidly placed, financially, that there may be no temptation for her to listen to French proposals or consider French advances.

Doomed to Complete Destruction.

LONDON, July 8.—The Holland distillery, at Deptford, a suburb of this city, is on fire. It is conceded that the building is doomed to complete destruction.

A RED HOT TIME.

The Minnesota Farmers' Alliance Have a Exceedingly Exciting Convention.

ST. PAUL, Minn., July 8.—The state executive committee of the Farmers' alliance met yesterday in this city and later a conference for the purpose of organizing the new people's party in Minnesota was held. Mr. Donnelly, who was appointed chairman of the Minnesota state committee by the Cincinnati convention, gave in the names of a full state committee and hoped it would meet with acceptance. Senator Hompe, leader of the anti-Donnelly alliance faction, objected to the new committee because it ignored the existing alliance campaign committee. He held that the Cincinnati convention proposed new committees only in unorganized states, while Minnesota was already organized for agitation in the campaign. The battle then grew warm, and finally a motion was made for a committee of five to report a compromise, three of said committee to be the three appointed at Cincinnati. Donnelly objected strenously, but the motion carried. This committee of five announced a new committee late in the afternoon, divided between the two factions. Another fight then arose on the part of some members of the committee, in the course of which ex-President R. J. Hall denounced Editor Fish, of the Great West, as a traitor, and called him a liar, when the latter attempted to defend himself. The report was adopted, and the new state committee met last night.

BRITISH SEALERS

Will Not Suffer by the Suspension of Seal Killing.

VICTORIA, B. C., July 8.—In reply to their telegram of May 30, protesting against the closing of Behring Sea this season, the board of trade has received a reply from the colonial office in which the following occurs: "As the total cessation of sealing in Behring Sea will greatly enhance the value of the produce of the coast fishery, Her Majesty's government does not anticipate the British sealers will suffer to any great extent by their exclusion from Behring Sea. The government is prepared, however, to consider cases which establish a direct loss sustained by any British subject through the enforcement of the prohibition of sealing in the Behring Sea."

THE WORK OF TRAMPS.

An Unsuccessful Attempt to Wreck a Passenger Train.

COLUMBUS, July 8.—As the special military train from Indianapolis to Louisville, on the Pennsylvania line, was rounding a curve, a half mile out from Franklin, Monday night, the engineer noticed an obstruction upon the track. He succeeded in stopping his heavy train just as the engine ran upon it. Some fiend had taken two short "T" rails, about six feet in length, and dug a hole under a tie in such a manner as to leave the ends of the rails projecting above the track so as to ditch the engine. It is thought that the work was that of some of the tramps recently punished by the company for riding upon freight trains.

MRS. PALMER HONORED.

She is Tendered a Seat in President Carnot's Theatrical Box.

PARIS, July 8.—Mrs. Potter-Palmer, of Chicago, was today granted a private audience with Mme. Carnot, wife of the president of the French republic. To-morrow evening by special invitation Mrs. Palmer will occupy the president's box at the opera. The French press refers at length and most favorably to Mrs. Palmer's ladies' world's fair committee, which was recently organized here. It is Mrs. Palmer's intention to promote the formation of a similar committee in London. The Princess Christiane, of Schleswig-Holstein, has promised her aid in the work.

NEW BREWERIES.

Four of Them to Be Built in Chicago This Year.

CHICAGO, July 8.—An afternoon paper says that Chicago capitalists propose to build six big breweries, two to be located on the north side, two on the west side and two on the south side. Their capacity is to be 250,000 barrels each per annum. The latest improvements are to be introduced, including the Tackomia process and beer is to be sold at $3.50 per barrel, it is stated. As the present price is $6 the old companies will have some lively competition.

WANTS A DIVORCE.

The Wife of a Millionaire Tires of Her Rich Husband.

NEW YORK, July 8.—Josephine Maillard has brought an action in the supreme court for separation from her husband, Henry Maillard, the millionaire chocolate manufacturer, on the ground of abandonment. She says she married the defendant in this city in 1873, and that he deserted her in Paris last March.

Gibson Indictment Postponed.

CHICAGO, July 8.—Judge Collins, Lawyers Gunnels and Barry, for Gibson, and State Attorney Longenecker met in branch 1 of the criminal court at 9 o'clock this morning, and the result of the meeting was that a final decision on the Gibson indictments was postponed until the August term.

MARKED FOR DEATH.

Judge Botkin Declares Steps Have Been Taken to Assassinate Him.

TOPEKA, Kan., July 8.—Judge Theodosius Botkin, who is charged by the people of Woodsdale with being responsible, in a measure, for the murder of Col. Sam Wood, who was shot and killed two weeks ago by James Brennan, was in town today. In an interview with a reporter he said: "A meeting has been held in Woodsdale, the avowed object of which was to dispose of me. When it was called to order the chairman stated that that was its object, but before anything was done one of those present stated that there was a person in the hall who was not worthy of being intrusted with the secrets of Woodsdale, and an adjournment was taken. Another meeting was called on July 4. The call for this was published in the Springfield Republican, and was to the effect that the meeting was for the purpose of taking steps to see that the officers of the court did their duty in the Brennan case. My friends are not of the kind to stand by and see me murdered."

AN EXCITING MEETING.

Indignant Citizens Make It Hot for Detroit Councilmen.

DETROIT, Mich., July 8.—The council meeting last night was attended by an enormous crowd of indignant citizens gathered to show their interest in the street railway franchise question, and, as it proved, to voice their indignation at the work of the council. When the franchise question came up and during the discussion which followed bedlam broke loose. The packed chamber was filled with excited men, who cried, "Down with Boss Jacobs and his gang," "Tar and feather the boss," "Hang him," and similar cries. Jacobs faced the storm a moment, speechless with rage, and foaming at the mouth. When he did speak he damned the citizens roundly and moved on them. Affairs became so threatening at this point that to transact business was impossible, and amidst the greatest excitement ever exhibited in the council chamber, adjournment was taken.

FREIGHT TRAINS COLLIDE.

Five Men Injured and a Number of Cars Demolished.

CLEVELAND, Ohio, July 8.—Two freight trains on the Cleveland, Canton and Southern railroad collided near Newburg, at 8 o'clock this morning, and a number of cars were smashed into kindling wood. Five men were badly hurt. Peter Hammer, one of the conductors, had a leg broken and was injured so badly about the head that he may not recover. Ed. Royer, a brakeman, had one leg broken and sustained internal injuries from which he cannot recover. Dave Brown, an engineer, and two other men were badly hurt. The accident was due to the mistake of a telegraph operator, who gave both conductors orders to go ahead with their trains.

WILL VISIT FRANCE.

The Czar and Czarina Contemplate a Trip to That Country.

LONDON, July 8.—High officials near to the person of the czar are said to believe that the Russian autocrat contemplates visiting Paris during the coming autumn. Should the czar journey to the French capital he will be accompanied by the czarina and czarowitz. The impression is the czar will convey his decision in the matter to Admiral Gervais upon the occasion of the official reception in honor of the French squadron which is now on its way to Cronstadt.

GOPHERS AND SQUIRRELS

Make a Raid on Wheat Fields and Frighten Farmers.

TACOMA, Wash., July 8.—Washington's wheat crop is in danger of partial destruction by gophers and squirrels. For several days wheat buyers have been receiving advices that for five or six days these animals have been appearing in large numbers in the Big Bend and Palouse districts. Arsenic is being spread over the fields mixed with grain and is killing large numbers of the rodents.

A NEW BUSINESS.

E. T. Stringer Returns to the City to Embark in Business.

Mr. E. T. Stringer is home from the west. Mr. Stringer has been conducting a large wholesale and retail grocery at Rock Island, Nebraska. His son, Fred, took charge of the store last week, and Mr. Stringer will reside at home with his family for the present, and if he can find a good location, will open a large grocery store in this city.

TOOK POSSESSION.

The Republicans Use Force in Getting Petty Offices.

PROVIDENCE, R. I., July 8.—As a result of the decision of the supreme court on Friday last in ousting the recently elected democratic town council of Lincoln on the license ballot issue, the republicans stormed the town house yesterday afternoon, forced the doors and elected officers. Town Clerk Smith refused to give up the record pending the production of the certificate of election of his successor, and awaiting the arrival of some one to break open the vault, the day's proceedings closed.

KNEW HOW TO BEG.

In the Role of a Deaf Mute, an Old Man Works the Begging Racket and Gets in Jail.

An old man with gray hair, bent form and tottering step was a prisoner in police court this morning.

He entered the room shortly before court was convened, under the charge of Officer John Trammel, and taking a seat in the criminal row, patiently waited for his case to be called.

The prisoner was arrested last evening by Officer Trammel on the charge of obtaining money under false pretenses. He is a professional beggar and had been making the rounds of the business houses when his career in this city was suddenly brought to a close.

He struck the city yesterday and at once commenced a begging tour of our business houses presenting the following appeal, which he had penned on a piece of legal cap paper:

"Friends, I ask you in the name of Humanity for some assistance to Mansfield, Ohio. I am sick and out of money. I came from St. Paul Minn., and am going to friends. Please assist me. God prosper you.

"JOHN HESS,
"Deaf Mute."

Below this introduction were the signatures of men who had contributed various amounts. The collections amounted to nearly $5.

When THE SENTINEL reporter saw the old fraud, he was in the cigar store of Frank Gruber. Presenting his document to Mr. Gruber he nervously awaited a response. Frank read the paper over carefully and then, looking searchingly into the old man's face, to test his honesty and hearing, said: "What is the matter with you? How much shall I give you?"

The old man was proof against such tests and made no response, and Frank, convinced of his deafness, handed him twenty-five cents, with the remark to those sitting in the store: "If the old man is a fraud, I'll kick myself all over, but I haven't got the heart to turn these fellows away." The beggar bowed an acknowledgement of his gratitude and left the store.

He appeared then to be somewhat under the influence of liquor, and soon afterward he entered the saloon in the Rich hotel building and in a clear, distinct voice asked for a drink of whisky. Officer Trammel was on his track and seeing his actions immediately placed him under arrest and took him to the police station in the patrol wagon. The prisoner cursed and swore vehemently and on the way to the station pulled his subscription paper from his pocket and tore it into pieces and threw them to the pavement. These pieces were picked up and will be used in evidence against him.

When his case was called in police court this morning Deputy Prosecutor Emerick was not ready for trial, on account of the absence of witnesses, and the hearing of the old man was postponed until tomorrow morning. He was taken to jail.

THE GRIST OF THE COURTS.

Gronendyke is learning the pastry business in the Northern penitentiary.

Justice Wilkinson fined Herman Thomas $11.75 for having a friendly jag. He went to jail.

An affidavit has been filed in Justice Franco's court against O. J. Wheeler for obstructing a public highway. He unloaded a corn cultivator from his wagon onto the sidewalk yesterday morning.

The case of illegal parentage of Ida McBratney vs. George Noirot was heard in Justice Ryan's court yesterday.

A well-known sport and a girl who gave her name as May Lee, which is fictitious, she being the daughter of one of our well-known citizens, were arrested last night in a room on East Main street on the charge of prostitution. In police court this morning their fines were paid and they were released.

In 'Squire Wilkinson's court, Ann Lannon commenced attachment proceedings against James Kinsman on an account, and the household goods were levied upon by the officers, but as soon as the proceedings were commenced, the defendant settled all cost and the claim, and the case was dismissed. The keeper of the Pacific saloon, Clingenberger, replaced David H. Randall for an account of $62, and the claim was settled in full.

An interesting law suit is on, brought by Malcolm & Bush, against Gotsch, for commission for selling real estate, in Justice Wilkinson's court. The plaintiffs claim that they were authorized to purchase property for the defendant, and that he promised them a commission, but that he afterwards had Mr. Porter secure the property for him, and refused to pay the commission promised. The defendant denies the allegations. The case was on trial yesterday, but the hearing was continued, because of the absence of a witness, until 10 o'clock this morning. J. E. K. France is the attorney for the plaintiffs, while the defense is conducting his own case.

Hereafter the court reporter of THE SENTINEL will not use in this column the report of the civil suits brought in the justice courts, unless there is something of a peculiar or startling interest about them. Men may be unfortunate and be sued for claims owing by them, but THE SENTINEL does care to parade their misfortunes before the public. For this reason civil suits, of an ordinary character on note or account, will not be used by THE SENTINEL.

The mysterious disappearance of a boy whose parents reside on the St. Joe road, two and a half miles from this city, has been reported to the police. Albert Guyer, the thirteen year-old son of Rudolph Guyer, started alone on foot July 4 for Vordemark's grove, where he expected to join his parents at the picnic. The lad has not been seen since that time.

The following are the real estate transfers: C. A. Lowry et al, to Westminster Seminary association, space east of Rock street, south of Main street and north of alley, $4,000, deed executed May 25; George DeWald to Augusta Kramer, lot 225, Lasselle's, $650.

David Randall was capiased by Justice France for a beer bill of $73, due John Kaler and Sam Kunts. Judgment was rendered for the amount and the defendant sent to jail on a capias ad satisfaciendum.

Officer Daseler this morning arrested two boys, named Henry Spain and Willie Van Camp, for the Batchelder burglary committed last week. The boys are now locked up and will have a hearing on the charge.

The board of review announce that they will be in extra session on the evenings of Mondays, Tuesdays and Wednesdays, commencing next week, to accommodate the working classes who cannot get away during the day. The board will set from 7 to 9 o'clock on those evenings. This is a considerate act, and one that will be appreciated. The time today was consumed in receiving a few unimportant complaints. The books of the city assessors have not all been received, and not until they are submitted will the board transact important business.

DEATH OF AN OLD SOLDIER.

Col. J. B. Dodge, of Warsaw, Answers the Last Roll Call.

The surviving members of the old Thirtieth Indiana regiment will regret to learn of the death of their old colonel, J. B. Dodge, which occurred from general debility, at Warsaw, at 4:30 o'clock yesterday afternoon. The deceased was sixty-one years of age, and was well known throughout this section of the country, and was esteemed and honored by all. His last illness was of long duration, and for some time all hopes of his recovery had been abandoned, yet all will sincerely mourn his departure, and feel that they have lost not only a comrade, but a true personal friend. Capt. J. B. White and Col. O. D. Hurd, of this city, were at his bedside when the end came, and up to within a half hour of his death, he was conscious and chatted pleasantly with his old comrades in arms. He leaves two daughters—one married—his wife having preceded him to the great unknown about three years ago. He was one of the old residents of Warsaw, and was highly esteemed and respected by all, both old and young.

The Thirtieth regiment was composed of two companies each raised in Allen, Kosciusko and Noble counties, and one company each from Lagrange, Steuben, DeKalb and Elkhart counties. When organized Silas S. Bass was the colonel, and J. B. Dodge went out as lieutenant colonel, but Colonel Bass having been killed at the battle of Shiloh, he succeeded to the colonelcy, and served during the war. He was well liked by his regiment, and was a good, brave and valiant officer.

The funeral will be held at Warsaw on Saturday, and the following call has been issued to the old soldiers in this vicinity:

ATTENTION, THIRTIETH INDIANA.

Death of Colonel J. B. Dodge, at Warsaw: All members of the Thirtieth Indiana, and all other comrades who desire to join them, are requested to meet at Mayor Zollinger's office at 8 o'clock, on Thursday evening to make arrangements to attend the funeral which is to take place on Saturday at 2:30 o'clock. Comrades can leave here on the 12 o'clock train at noon and return at 8 o'clock the same evening. Let there be a large turn out.

COL. O. D. HURD,
COL. CHARLES ZOLLINGER,
CAPT. J. B. WHITE,
Committee.

Col. Dodge was an intimate friend of the members of the above named committee. A few days ago Col. Zollinger was at his bedside and received instructions from him as to his funeral.

The pall-bearers will be: Col. O. D. Hurd, ex Congressman J. B. White, Mayor Zollinger, of this city; Capt. N. N. Boydston, of Warsaw; Capt. J. H. Ohlwine, of Cromwell, Ind., and Col. O. A. Briant, of Huntington. All the pall-bearers were member of the Thirtieth Indiana, except Col. Briant, who belonged to the Eighty-eighth Indiana. A large number from this city will attend the funeral.

Commission House Fails.

MILWAUKEE, July 8.—Mohr, Zinzieen & Co., a prominent commission house here, have failed. Liabilities and assets not stated.

The Great Preacher No Better.

LONDON, July 8.—There is no improvement in Mr. Spurgeon's condition today.

GONE TO THAT BOURNE

From Whence no Traveler Returns--Death of Mrs. Captain Whiting--Other Deaths.

Mrs. Ann Maria Whiting, wife of Captain Ira C. Whiting, died at her home, on the Bluffton road, last evening, at 5 o'clock. The immediate cause of her death was nervous prostration, superinduced by la grippe, which had afflicted her several months previous to her death. The deceased was born at Wertemburg, Germany, February 18, 1822, and her age was sixty-nine years, four months and twenty days. She removed with her parents to America, taking up their home at Baltimore. Removed later to Ohio and thence to Fort Wayne in 1845, where she made her home continuously since. In 1848 she married Ira C. Whiting, the surviving husband, who will be remembered by all the old residents as Captain Whiting, who ran a line of boats in early days. The one surviving child is Al Whiting, formerly of the Wabash freight office, who resides at present on East Wayne street. The declining years of Mrs. Whiting have been spent happily with her husband at their country home south of the city. They lived for many years at the New Haven road toll house when Captain Whiting was gate-keeper. Many friends who have known Mrs. Whiting these many years, and know of her grand character, will deeply deplore her death. The funeral will take place Friday at 2:30 p. m. from the house. The interment will be at St. John's cemetery.

OTHER DEATHS.

The nine-days-old child of Grant Squires and wife, of 58 Force street, died of spasms. The funeral will be Thursday at 9:30 a. m. from the house.

The funeral of William Kruse will be held Friday afternoon from the residence, 43 West Lewis street, at 1:30 o'clock, and from Emanuel's Lutheran church at 2 o'clock, Rev. Gross officiating.

The six months-old child of Mr. and Mrs. Harvey, of East Superior street, died last night.

THE MYSTERY EXPLAINED.

The Flooded Desert Gets Its Water From the Colorado River.

SAN FRANCISCO, July 8.—Dispatches received by the railroad officials from Salton show that there is no material change in the level of the lake. An exploring party sent out five days ago from Yuma have returned, but their report is unsatisfactory. They went down the Colorado and found where the water was entering the desert at El Ry, and traced it for thirty-five miles as far as Great Lake, at the Indian Wells. They found the stream leaving Colorado to be from forty to fifty feet deep. Water covered all the old stage routes and thirty-five miles from the Colorado it had a velocity of four miles an hour. The stream at this point was from one to two miles wide and from two to four feet deep. The party came within sight of the ridge which separates the Indian wells form Salton basin, but they did not explore this ridge to ascertain just how the water comes through. Another party will be sent out by the railroad company starting from Flowing Wells with instructions not to return until they have solved this desert mystery. The Colorado river is falling, having dropped a foot in five days.

IN A CLAY CRUSHER.

Two Men Horribly Mutilated by the Carelessness of an Engineer.

AKRON, Ohio, July 8.—Foreman William Berg and his helper, James Quinn, were shockingly mangled, at 4 o'clock this afternoon, in a huge clay crusher at the J. C. Ewart Tile works here. Berg and Quinn were both in the crusher making some repairs when the carelessness of a workman in another part of the shop caused the machinery to start. Both men were drawn into the crusher. Their distressing cries attracted the attention of other workmen and the machinery was speedily stopped. The injured men were taken from the machine nearly dead. Quinn had both his hands torn off and his left leg ground to pulp and torn from the hip socket, where it hung by only a few shreds of bloody flesh. He was otherwise mangled, and died in an hour. Berg had an arm and leg crushed and sustained internal injuries which will prove fatal. It is the worst accident that has occurred in the Akron factory for several years.

AN IMPORTANT SUIT

Involving $3,000,000 and Possession of a Railroad.

OMAHA, Neb., July 8.—Suit has been begun in the United States circuit court by the Kansas and Colorado Pacific railway agent against the Fitzgerald and Mallory company for $3,000,000. The petition alleges that the defendants fraudulently obtained control of the road and converted to their own use money subscribed by towns and counties in aid of the road. They ask for an accounting and that the contract giving the defendants certain stocks and bonds be set aside.

ELECTRICITY, for inflicting the death penalty, is a success.

THE cool wave that struck us last night brought out spring overcoats.

THERE is now no ex-vice-president living in this country. The sudden death of Hannibal Hamlin removes the last of that number.

THE two living ex-presidents made Fourth of July addresses last Saturday, Mr. Cleveland at Concord, N. H., Mr. Hayes at Beatrice, Neb.

THE many Protestant friends of Bishop Dwenger join with his people in a prayer for the ultimate recovery of the distinguished prelate.

THE many soldier friends in this city of Col. J. B. Dodge, of Warsaw, whose death occurred yesterday, will drop a tear of sorrow and mourn that their old army comrade is no more.

EVEN the Philadelphia Press is constrained to say: There is a strong and growing conviction among republicans that Mr. Quay's prominence in the party councils is hurtful to the party.

IT now appears that the county board of equalization have no power to reduce the county tax levy. This power belongs to the county commissioners, and on their shoulders rests the responsibility of higher or lower taxation.

THERE are about one hundred and five women to every one hundred men; one quarter of the population of the world die before the age of seventeen years; only one in 1,000 lives to be one hundred years old, and only six in 1,000 reach seventy-five.

SAN FRANCISCO has 4,500 saloons or places where liquor is sold at retail. If the population of the city is 350,000, there is one saloon to every seventy-three persons. If the voting population is 50,000, there is a saloon for every thirteen and one-half votes.

"How we do grow." In an old geography, printed in 1812, appears the following: "California is a wild and almost unknown land. Throughout the year it is covered with dense fogs, as damp as unhealthful. In the interior are volcanoes and vast plains of shifting snow, which sometimes shoots columns to great heights." This would seem nearly incredible were it not for the well authenticated accounts of travelers.

THE Salvation Army has been in existence just thirteen years. It had its origin in a sensational way in the English town of Whitby, in the rough coal mining district of Yorkshire, where General Booth, at that time the Rev. William Booth, was doing humble mission work. England was then in arms, expecting to jump into the Russo-Turkish war. It occurred to Booth that he might attract a crowd by issuing a declaration of war himself, so he prepared one forthwith, sprinkled it plentifully with hallelujahs and posted 2,000 copies of it about town. The device tickled the British sense of humor, there was a red-hot, rousing meeting, to quote General Booth, "the penitents fell down in heaps" and the Salvation Army sprung into life full grown.

THE physicians of Rev. Spurgeon, the noted London divine, declare that he is in a very dangerous condition. He is afflicted with an ailment which appears to be deep-seated, and which, it is feared, may carry him off. This announcement will be widely and profoundly regretted. Few men of modern times have exerted a more potential influence than has Mr. Spurgeon upon public morals. He preaches to a greater number of persons each Sunday than any other minister in any other country. He is simple in his manner of speech and is listened to attentively by young and old. An American lecture bureau offered him $50,000 and expenses of himself and wife for fifty lectures in this country, but he refused, saying he would rather remain in London and save fifty souls.

A CIRCULAR of advice issued through accredited official channels of the Farmers' alliance to all members of the farmers organizations in the United States urges them to combine and withhold this year's wheat crop from market until the farmers can get their own price, or at least a price considerably above the average. The circular, which is presumed to be a secret document, is now ready for mailing and it will be sent to the members of the Farmers' alliance and Industrial union and the members of the National Colored alliance, and members of the National Farmers' alliance of the north, the eight hundred thousand members of the Farmers' Mutual Benefit association, the six hundred thousand members of the Patrons of Husbandry, the Patrons of Industry and the 150,000 members of the Farmers' league. The farmers' organizations now apparently feel in a position to make demands calculated to yield pecuniary profits to the agricultural classes and they propose to begin with a gigantic combination in wheat.

HUMANE SOCIETY WORK.

Seventy Cases Disposed of by Mr. Read, the Agent.

On the fourth day of last April the Humane society, as newly organized by Mrs. Gause and several assistants, began active work by starting out Mr. M. Read as agent for the society. The humane work that had been started a long time ago had relapsed into a state of uselessness, and when Mr. Read took up his duties there was a boundless range for his operations. During these three months seventy cases have received the attention of this society, embracing cases of so many different characters that it would take a volume to produce a very clear impression of what is going on in the way of cruelty to human beings as well as to dumb animals. Some of the cases expose a shocking and degraded condition of human kind toward themselves and to animals. As an illustration of what the agent meets in a daily round THE SENTINEL is permitted to recite a few cases from his daily record. On May 11 a certain man living in Francketown turned his mother out of doors. Although the man could not be found for prosecution the poor old lady was provided a home by members of the Lutheran church whose attention was called to the circumstances.

A saloonkeeper on Hanna street was found to have an idiotic child nine years old, confined in the basement of his house. He said he had made application to have the child cared for at an asylum, but had not succeeded. The investigations of Agent Read after his third visit, resulted in the removal of the child to a room upstairs, where pure air and God's free sunlight would improve rather than drag down its condition.

A man living in Bloomingdale, who neglected and abused his family, was led from strong drink and the gloomy walls of the jail to the more manly occupation of making his home circle a happy one.

A peculiar case has come to light. The neighbors of a Bloomingdale family complained of a husband who made it a practice of coming home drunk and abusing his family. When the agent called the abused wife said that she had stood it for the last ten years and would not like to appear against the man now. The beastly husband, however, is being watched.

A husband who has been an all-around worthless man for some time, has promised to reform and go to work and quit beating his wife.

Cases of cruelty to women and children are numerous.

That intelligent servant of man, the horse, has a close friend in the Humane society. Of the many cases reported and remedied some were being driven in a starving condition, others were driven fast, again others were forced to draw loads beyond their natural strength. Several reports were made of whipping horses. One case is that of working a horse with a lame knee, another an incurable wound. And so on case after case might be related showing the fruits of each day's work done by the Humane society in behalf of the horse.

While it may seem a small matter for the society to interest itself in it is none the less humane that persons found responsible for tying together the feet of chickens or fowl of any kind are placing themselves liable to vigorous prosecution by continuing the practice. No less than fifteen cases have been reported of persons who tied together the legs of calves and poultry.

Agent Read has had numerous cases reported to him in which there was not enough to justify interference on the part of the Humane society. These reported cases are dropped at once, as the true purpose of the society is to suppress cruelty and not mix up into other people's affairs when it is wholly uncalled for.

The Purest and Best

Articles known to medical science are used in preparing Hood's Sarsaparilla. Every ingredient is carefully selected, personally examined, and only the best retained. The medicine is prepared under the supervision of thoroughly competent pharmacists, and every step in the process of manufacture is carefully watched with a view to securing in Hood's Sarsaparilla the best possible result.

NO GAME YESTERDAY.

Dayton's Sand Heaps Were too Muddy for Base Ball.

After losing several games, and prospects good for still more, the clements combined and prevented a game at Dayton yesterday. Just what the result would have been will never be known, but as those Buckeyes seemed to have the "hip lock" on our "Blues," and with each twist seemed to roll them around at will, it is more than probable we would have exchanged places with Dayton, but now our prospects are brighter and our reckoning will be of no account if Capt. Herker does not present Col. Wm. Myers with three balls won at the expiration of the Terre Haute series here.

"Your Uncle Andy," from Evansville, evidently would have swiped the earth with the "Snuber Gang" yesterday had not rain stopped the game at the end of the third inning. The game stood three to one in favor of "Andy."

Poor old Mike Trost has been kicked lodily from the Peorias. After scaling that dizzy craft around the circle, and kicking so hard as to produce the earthquake in California which caused the overflow of the Colorado, and then to return home with his ill gotten gains, and to be thus fired, is a fearful contemplation. How lonesome Pat Wright and "Duckey" Hemp must feel. No more will they sing out with each play, "How's that Mike?" Good bye "Moike," don't come to visit us this summer.

The following tells the result of yesterday's games:

AT GRAND RAPIDS

Innings.	1	2	3	4	5	6	7	8	9	
Terre Haute	0	1	1	0	1	2	0	1	0	—6
Grand Rapids	1	0	0	2	0	2	0	0	0	—5

Base hits—Grand Rapids, 7; Terre Haute, 8. Errors—Grand Rapids, 4; Terre Haute, 2. Batteries—McManis, O'Connor and Boland; Flood and Mills, Empire—Cline.

The League and Association games were as follows:

National League—At Chicago—Philadelphia, 6; Chicago, 2. Cleveland-Boston, Pittsburg-New York and Cincinnati-Brooklyn, rain.

American association—At Boston—Boston, 12; Columbus, 0. At Baltimore—Baltimore, 2; Cincinnati, 8. At Washington—Washington, 14; Louisville, 7. At Philadelphia—Athletics, 7; St. Louis, 1.

A BAD MESS.

A Clogged Sewer on the South Side Causes Much Trouble.

The south terminus of the Clinton street sewer, near the reservoir, has caused considerable vexation to the property owners tributary to its benefits as well as to the city civil engineer and contractor. That portion of the sewer is clogged at a point near the corner of Clinton and Allen streets, thus shutting off an outlet to the sewage above that point.

The Clinton street sewer, south of the railroad, was built only a few years ago. It is a thirty-inch brick ring, and Joseph Derheimer was the contractor who had its construction in charge. The thirty-inch sewer proper ends near the corner of Clinton and Allen streets, but at this point should find outlet for a clay pipe sewer which runs southward on Clinton and through private property until it joins another clay pipe sewer which drains the neighborhoods from the reservoir west to this point. The outlet referred to is lacking, and, as a consequence, the citizens of that end of town are mad, a feeling that can be worn off in but one way, and that is to proceed with alacrity to extinguish the evil. This work has been commenced by excavating the crock portion of the sewer from the alley between Leith and Pontiac streets, (where it joins the Lafayette street branch) for a distance of perhaps 200 feet. The trouble is not then remedied, making it necessary to carry this expensive work further down northward, until the real spot is located. Some say that the extreme south end of the brick sewer for a short distance is too high to provide an easy outlet for the pipe sewers mentioned above, but as the opinion is divided as to the real cause there seems to be but one course to follow and that is to trust City Civil Engineer Frank Randall to get out of the predicament with all possible haste. Those property holders to whom the assessments for the sewers have fallen, consider the situation as a very serious one.

Timely Advice.

Now is the time to provide yourself and family with a reliable remedy for bowel complaints. It is almost certain to be needed, and no family can afford to be without it. It costs but a trifle and may be the means of saving much suffering, if not life. There are many different remedies in use, but Chamberlain's Colic, Cholera and Diarrhoea Remedy is undoubtedly the best. 25 and 50 cent bottles for sale by druggists.

BULLARD DYING.

But a Supposed Friend Sets a Fire in His Behalf.

COLUMBUS, July 7.—The excitement at Hope over the attempted assassination of George Rothrock by William Bullard Sunday morning and the burning of Bullard to this city Sunday night to protect him from mob violence, has been intensified by the burning, at 1 o'clock Monday morning, of the large residence and barn, near Hope, belonging to Dr. U. V. Kent, by a supposed incendiary, a friend of Bullard, involving a loss of $3,000. The barn was filled with grain and farm implements, but the house was empty. Bullard is still in the poor asylum hospital near this city, and it is not thought there is any hope of his recovery. When asked about the numerous crimes he is charged with he says he knows a good deal, but won't give up and intends to take his secrets with him to the grave. Rothrock is still alive and there is some hope of his recovery. Grave fears are entertained that the vengeance of an outraged community will be wreaked on Bullard if he doesn't die soon.

SCHOONER WRECKED.

The "Silver Cloud" Goes Down With Her Captain and His Family.

MILWAUKEE, Wis., July 7.—A telephone message just received by the Journal, from Port Washington, says: The wreck of a two masted steamer was discovered this morning at 10 o'clock, about five miles north of this place. A tug went out and took three sailors, comprising the crew, off in safety. Captain Johnson, wife and child, were drowned. The schooner was the Silver Cloud, of Milwaukee, bound from Bailey's Harbor to Milwaukee, with cedar posts and lumber. The crew kept at the pumps as long as possible. About 2 o'clock this morning they gave it up and Captain Johnson went to the cabin to arouse his wife and child. While below a heavy sea struck the schooner and capsized her. The bodies have not been recovered and are still in the cabin. At noon the wreck was beached at about seven miles north of here.

TWO EMBEZZLERS.

Two Pittsburg Men Use Funds Not Their Own.

PITTSBURG, July 7.—A. T. Douthett, secretary and treasurer of the Porter-Douthett Machine company, was arrested yesterday, charged with embezzling $12,790. The charges were made by J. C. Porter, jr., one of the company. Mr. Douthett says the affair is the outcome of a quarrel with the company.

Thomas Porter Brown is in jail here for embezzling over $10,000 from Thos. Latimore, a dry goods merchant of Allegheny. Brown has wealthy relatives, but they refuse to help him.

TORTURING ECZEMA.

Editor Iowa Plain Dealer Cured of Insufferable Itching and Pain by the Cuticura Remedies.

No Less Than Five Physicians Consulted. Their Combined Wisdom Followed Without Benefit.

I am sixty-six years old. In August, 1880, was troubled with a peculiar skin disease to which people of my age are subject, known among medical men as eczema. Its first appearance was near the ankles. It rapidly extended over the lower extremities until my legs were nearly one raw sore; from legs the trouble extended across the hips, shoulders and the entire length of the arms, the legs and arms greatly swollen with an itching burning pain, without cessation. Although the best medical advice attainable was employed, no less than five physicians of the place being consulted and the prescription being the result of their combined wisdom the disease though apparently checked, would recur in a new form as bad as ever; during its progress my weight fell away about twenty-five pounds. As an experiment I began the use of Cuticura, following the simple and plain instructions given with the Remedies, and in four weeks found myself well, with skin soft and natural in color, the itching and pain entirely relieved. SHOPS AND RAILROADS.

An Old Railroader Talks on Track Repairs—Local and Personal News Gathered at the Shops.

An old roadmaster says that in putting in new ties they should first be carefully assorted so that ties having the same probable life will be placed together; then when they have to be replaced there will be no half used ties. Even if parts of the ties are half worn on a piece of the road where some new ones have to be placed, it is better to put in new ties and use the best ones that are taken out on a side track. This renders it unnecessary to tear up half the track on the road for the purpose of replacing about one-eighth of the ties. If new ballast is used the track should be raised one-tenth of an inch to allow for settling, for new ballast will settle however carefully tamped. The life of the tie depends largely on the tamping; if the ballast is packed too hard in the middle the tie has to act as a beam, and if it is not packed enough the water settles there and makes a kind of blind drain.

ON A TOUR OF INSPECTION.

Yesterday afternoon the gentlemen connected with the construction of the Toledo and Western railway started from Toledo on a tour of inspection of the entire route. The party consisted of Hon. R. C. Bell, Donald McLean, the head of the enterprise, Ben Reynolds, Mr. Firman, Chief Engineer Engals, of the purchasing party, and G. G. Hadley, Mr. Elmer White, George H. Ketcham, R. R. Kinkade, Engineer Paul and Sylvester Lamb, of the Toledo and Western. Various stops will be made for inspection of the line as surveyed by Chief Engineer Paul a year ago. The trip will occupy a full week. Concerning this line the Chicago Herald says: "It appears that behind the new line between Chicago and Toledo there is the powerful backing not only of the Canadian Pacific but of the Brice-Thomas syndicate, which means the Richmond terminal. The new road has already arranged for an entrance to Chicago over the Louisville, New Albany and Chicago and the Western Indiana. In order to enter over the Western Indiana the protection of the Louisville, New Albany and Chicago was required, and this gives rise to the report that as soon as it is completed the Toledo and Chicago Bee Line will be leased to or consolidated with the Louisville, New Albany and Chicago, which is now in the control of the Richmond Terminal people. The new line will afford an entrance to Chicago for the Lake Erie and Western—not the New York, Lake Erie and Western—which is owned by the Brice-Thomas and Richmond Terminal interest. When completed it will be perfectly natural for the Canadian Pacific to enter Chicago over the new road, because in the Canadian Pacific directory are many of the Richmond Terminal people, including Col. Calvin S. Brice. Donald McLean, who has the contract to build the Toledo and Chicago Bee Line, is now actively engaged on preliminaries for the actual work of construction and will break ground in a short time. The line is to be completed in less than a year."

A CONSOLIDATION.

A railway deal involving a great change in the systems of the northwest is in progress, in which are interested the leading stockholders of the Rock Island, the Burlington, Cedar Rapids and Northern, and the bondholders of the Minneapolis and St. Louis. The proposed deal contemplates the consolidation of the two last named roads with the former, thereby giving it direct access into St. Paul. But the transfer will not be complete with such a consolidation. The Rock Island is determined to gain access into Duluth, and is working to this end.

BRIEF MENTION.

Superintendent C. D. Law is in Chicago.

Conductor John Uran, of the Nickel Plate, is sick.

M. Ehrman, of the Pittsburg car shop, is off duty.

Engineer P. Titus, of the Pittsburg, is taking a vacation.

C. F. W. Weeks, of the Pittsburg car shop, is on the sick list.

J. L. Miller, boilermaker in the Pittsburg shops, is seriously ill.

Fireman W. P. McAfee has returned to his work after a brief lay-off.

William Lindeman, of the Electric works, is taking a vacation of a couple of weeks.

Fireman F. Corman, of the Grand Rapids, has returned from a visit to Chicago.

G. E. Wagner, fireman on the Grand Rapids, has reported for duty after a sickness.

Engineer J. C. Kensill has recovered his health and reported for duty this morning.

Michael Lade, of the Electric works, is on the sick list. John Cordaway, of the same shop, was also reported ill yesterday.

John Buflink has reported for duty at the Factory of Rhinesmith & Simonson, after a week's absence, during which he and his wife visited friends at Marion, Ind.

Kunkle's Valve works are closed today. Some of the machinery is being repaired.

The Wabash fast line was three and a half hours late this morning. Cause unknown.

Road Foreman A. H. Polhamus went out over division "U" of the Pittsburg this morning.

J. Garrison, of the East Pittsburg paint shop, is sick. He lives on New Haven avenue.

G. F. Card, of the Electric works, has returned from Cincinnati, where he spent the Fourth.

G. Anderson has resumed his run on the Pittsburg, having returned from a visit with friends in Chicago.

H. Heine, the Pittsburg boilermaker, has returned from Chicago, where he spent a few days with friends.

D. L. Mason, fireman on the Pittsburg, has returned from a visit to his brother, who lives in the country.

F. N. Kucher, the Pittsburg machinist, who was off duty on account of a sore eye, resumed work this morning.

General Manager Chas. M. Hays, of the Wabash, who has been in Toledo several days, has returned to St. Louis.

C. F. Dyer, formerly of the Pittsburg round house, has joined Dr. Norton's ten cent show. He will blow the bass drum.

The Fort Wayne Furniture company has a fine display of folding beds in the exhibition of the furniture dealers at Chicago.

James A. Ludington resumed work in the Pittsburg machine shop this morning. He was idle two weeks on account of a lame hand.

Engineer J. Denahy and Fireman B. Martin took engine 41 to Grand Rapids this morning, where it will go into the shops for repairs.

Pittsburg engine No. 218 went out of the shops yesterday and engine 221 will go out today. Both engines were thoroughly repaired.

A. Sattler, who was the guest for a few days of Gustave Smelzger, of the Electric works, returned to his home in Lafayette yesterday.

A. Hiser, engineer on the Grand Rapids, took his train out today. On account of sickness in his family Mr. Hiser was off duty several days.

Two hundred car loads of wheat were reported en route east from St. Louis yesterday. It is predicted that in three weeks every grain car in the country will be in use.

Two side pieces for an iron bridge went west over the Wabash today. They are seventy-five feet long and occupied three flat cars. The irons are for a bridge near Huntington.

It is reported that Thomas Henry will soon remove to Huntington and take a position in the shops of the Chicago and Erie railroad. He is at present working in the Pittsburg shops.

Fred Starkey, who operates a bolt machine in the Pittsburg blacksmith shop, lost the end of a finger yesterday afternoon by having it caught in the machinery. He will not be able to work for several days.

The remark made in the car shop office that "he never fetched it back" causes a smile to spread over the faces of the clerks. The reporter is not in it and why such a commonplace remark should cause so much merriment is a mystery.

Allen Hamilton, the machinist in the Pittsburg shops, was treated to a buggy ride last evening by ex-Mayor D. L. Harding. The object of the trip was to view the street improvements made during the term Mr. Harding's held the office of mayor.

Ed Carey, night watchman at the Electric Light works, has recovered from a three weeks' illness, and returned to his work, and Samuel Parker, who was acting in the capacity of watchman during Mr. Carey's illness, has returned to his old position in the works.

Mrs. John Kretsinger, wife of the foreman of the Pittsburg planing mills, will leave Saturday for Kalamazoo, Mich., where she will visit her parents a few weeks. Mrs. Kretsinger is afflicted with inflammatory rheumatism, and it is expected that the trip will be beneficial to her health.

George Hill received a bad cut in the palm of his hand this morning, which will probably disable him for a week or two. He operates one of the planers in the Pittsburg shops, and while tightening a belt on the planer-head the wrench slipped, allowing his hand to strike one of the sharp knives.

Near Lamar, Colo., a littlegirl of four years wandered to the platform of an express train and was blown off while the train was running at the rate of thirty miles an hour. A locomotive was sent back, and the searchers found the child at midnight sitting unhurt in a clump of weeds, and keeping very still for fear the Indians would get her.

A number of men have recently been discharged from the service of the New York Central. The company claims that the strike last year has nothing to do with the discharge of the men, but the fact that those dropped were in the strike leads the employes to think it is the intention of the company to gradually discharge all who were in any way connected with the strike.

The shipments of flour, grain and provisions from Chicago to the seaboard by the lines of the Central Traffic association last week aggregated 13,309 tons, against 12,363 for the week previous, an increase of 946 tons, and against 18,736 for the corresponding week last year, a decrease of 5,427 tons. The Vanderbilt lines carried 37 per cent. of the traffic, the Pennsylvania 32 per cent., the Chicago and Grand Trunk 17 per cent., the Baltimore and Ohio, 14 per cent.

Muncie Times: "Yesterday the first car load of new steel rails for the Fort Wayne branch of the Lake Erie and Western was distributed, and the good work will continue for two months, at the expiration of which time the whole line from Fort Wayne to Connersville will be of steel. There are twenty-four miles of iron track to be replaced."

A trainmaster of a good deal of experience, yesterday, when speaking of the accident, last Friday morning, on the Erie road, remarked that he had made it a rule never to put relatives together on any one train or in any other branch of the train service, so apt is one to take advantage of the relationship and shirk duty. In the case of the Erie train the brakeman whom it is alleged failed to do his duty was a son of the conductor of the train.

The conductors, who with Grand Chief Clarke, met in Chicago Monday to discuss the action of the Illinois Central in discharging about fifty conductors last June, adjourned without taking any definite action in the matter. It is understood, however, that the matter is to be taken up later and serious trouble may yet result. The men are not satified with the way the company treats them. A committee appointed to confer with General Superintendent Sullivan, of the Illinois Central, and ask a reason for the discharge, reported that the only answer given was that the services of the men were no longer satisfactory.

LOCAL LINER.

The family of Dr. Swearingen will rusticate at Rome City.

Dr. C. B. Siemon has received a letter from his wife, stating that she and her children are enjoying good health and delightful times at Ocean Grove, N. J.

Mr. Elva G. Kelsey, of Zanesville, Ind., and Mrs. Anna Evans were quietly wedded last evening at the Simpson church parsonage, 336 Calhoun street, the Rev. Driver officiating. They will reside in this city.

The Third district convention of the I. O. O. F. is in session at Warren, Ind. Mr. John Merritte Driver, who was to have lectured before the convention this evening, was compelled by other duties at home to cancel the engagement.

The arrangements of the "Old People's Concert" to be given at the Berry street M. E. church, have been completed, and the concert will be given next Tuesday evening. The occasion will certainly be a most interesting one, and the attendance will doubtless be large.

The regular meeting of the common council will be held next Tuesday. At that meeting the committee to which the petition for the extinction of street venders of fruit was referred will make a report. It is believed the council will act that evening without delay. In the meantime the fruit venders tremble for the result. The present ordinance gives them great privileges for a paltry license fee, while the legitimate merchant has heavy expenses to keep up.

The Chicago Times has the following concerning a former Fort Wayne boy: "Roy Keator, Chicago's unicycle rider, is at Mountain View, Rosendale, N. Y. He writes very interestingly of his experience. After reaching there he broke his rear wheel and has ridden but one wheel ever since, climbing the steepest hills and riding over the country on his one wheel. On his return to this city he will find two candidates for unicycle honors. He was unable to reach Rockford, where he expected to ride for the records."

The Rich hotel, heretofore conducted by Col. Andy McClure and F. D. Paulus, has changed hands, Colonel McClure retiring in favor of Harry Harrison, the popular proprietor of the "Monarch" house of call in that hotel. The transfer was made at 9 o'clock last evening. The new firm will be known as Paulus & Harrison, and it goes without saying that here is a team that will not only maintain the general good reputation the house already enjoys, but will extend its popularity as time goes on.

"SORRY, BUT SHALL HAVE TO LET YOU GO."

Thousands of delicate young ladies are employed in fashionable Dry Goods, Millinery, and other stores, where through the long day they are constantly on their feet. Among this class, some of the worst cases of female diseases occur. There is no rest, and, when their ill-health becomes apparent, they are at once discharged. To such, the aid and sympathy of Mrs. Pinkham are always available.

PINCHED FACE, BLUE LIPS.

Why a Lady Was So Unattractive.

"I saw a lady with pinched features, blue lips and a ruddy nose as I came down in the cars this morning," said one of the leading doctors of America recently. She was unhappy, and really did not know the cause. But I, as a physician, though never having seen her before, knew exactly the source of her trouble. What was it? She was suffering from malaria. Think you know, to now the great disease, and it seems to be on the increase."

"Is malaria dangerous, doctor?"

Yes, and no. It is the indirect cause of many, perhaps most diseases, and it always puts a person in a condition to invite disease, although it is bad enough of itself."

"Ah! there is the hardest part of the subject. The principal remedy has been quinine, but it is not always advisable. One thing, however, is almost a necessity in any case of malaria, and that is a pure stimulant, preferably whiskey. Where it is the right kind it seems to kill all the germs of malaria quicker than any other known thing."

The remarks of the doctor are most valuable, but he did not go on to state what is known to the writer—that both himself and most prominent physicians prescribe Duffy's Pure Malt Whiskey. Their reasons for this are many, the principal one being that is the only medicinal whiskey in the market and the only one which for years has stood the most searching chemical tests. Of course cheaper and impure whiskeys have been advocated and certain unscrupulous dealers try to sell them because they can make a larger profit upon them, but they can upon a pure and expensive whiskey like Duffy's Malt, but anyone who desires health and to keep off malaria should insist upon having Duffy's and take no other.

Messrs. Paulus & Harrison have a natural tendency to be genial, and know full well the other elements that ensure success in the hotel business. Colonel McClure, who made numerous friends in his hotel experience, has not decided to engage in any other business at present.

John Philabaum, a lad thirteen years of age, was on Monday evening last engaged in herding cattle for a Mr. Schilling. He had with him an old pistol of twenty-two-callibre, and in discharging the weapon, the ball entering his left leg above the knee, produced a painful flesh wound. The ball was extracted from the calf of his leg by Dr. Geo. B. Siemon.

I have been a great sufferer from catarrh for over ten years; had it very bad, could hardly breathe. Some nights I could not sleep and had to walk the floor. I purchased Ely's Cream Balm and am using it freely, it is working a cure surely. I have advised several friends to use it, and with happy results in every case. It is the medicine above all others for catarrh, and it is worth its weight in gold. I thank God I have found a remedy I can use with safety and that does all that is claimed for it. It is curing my deafness.—E. W. Sperry, Hartford, Conn.

The following frank statement from J. E. Hare, of Trenton, Texas, will be of interest to many of our citizens: "My little boy was very bad off for two months with diarrhœa. We used various medicines, also called in two Doctors, but nothing done him any good until we used Chamberlain's Colic, Cholera and Diarrhœa Remedy, which gave immediate relief and soon cured him. I consider it the best medicine made and can conscientiously recommend it to all who need a diarrhœa or colic medicine." For sale by druggists.

WM. SEARS ARCADE.

He Says the New Buildings Will be Commenced Next Week.

William Sears, of Plymouth, Ind., is in the city. Mr. Sears said to a SENTINEL reporter that next week work would be commenced on his proposed arcade building on West Berry street, the old Fruit House site. I am here for the purpose of letting contracts," said Mr. Sears, "and will let the brick work tomorrow." The dimensions of the Arcade will be 100x145 feet. There will be fifteen store rooms and sixteen office rooms up staire. The plans are already here and were inspected by the reporter. The building is to have a plain though handsome front.

THE HORSE "BUCKED."

But Willie Rutoll Kept on and Was Seriously Hurt.

Master Willie, the son of August Rutoll, the Barr street grocer, has been unconscious for the past twenty-four hours on account of a severe concussion by being shot over a pony's head. The lad started out for a ride on the back of one of those treacherous animals known as the Texas pony, which is noted for its "bucking" qualities. The pony that Willie rode went dashing along with a speed of wind, when suddenly he "bucked," that is stopped short, and the young rider was hurled like a shot from a catapult some twenty feet ahead, landing head first on the hard road. The unfortunate boy has not been conscious since the accident and the case is regarded with grave apprehension.

WOODLAWN AND FILEMAKER.

These Two Great Horses Will Perform at the Races Next Week.

The great Madam Marantette combination has been engaged to give exhibitions each afternoon during the races next week, and as this is their first appearance in this city will undoubtedly draw immense crowds. The Madam is conceded to be by far the best lady rider and driver in the world, and her performances with Woodlawn, the greatest saddle horse in the world, and Filemaker, the highest jumper in the world, are truly wonderful. She also rides one horse and drives four tandem, jumping over four foot hurdles placed about the track. Woodlawn is not only the finest saddle horse living but one of the handsomest animals ever shown. Filemaker's jumping record is 7 feet 3½ inches, with Madam Marantette on his back, and it is thought he will beat that record here. Few people in Fort Wayne have ever seen high jumping, and it is worth twice the price of admission to witness this great performance.

About eighty entries have been secured for the races, which insures a great meeting, and, with good weather, Fort Wayne race goers will be treated to the most exciting events ever seen in this city.
